LIMITED DRAW HUNTS

Arizona and New Mexico are the leaders in setting aside limited draw trophy areas for big game. With limited hunting pressure, these animals can mature to their full trophy potential.

With this in mind, and high cost of private land hunts, we are offering the best of these limited draw hunts to you through our professional licensing service. With our program we do all the work. We will apply the applications for you yearly at no charge. That's right! We will apply for you each year until you draw the tag or tell us to quit.

We will consult with you to find out your hunting desires and goals. Then match you with the best hunting areas available in these states. We take the hassle out of the application process. Researching the application process and hunting on your own can be time consuming, confusing and expensive, causing you to miss deadlines and leave you wondering just how good the area you selected really is. North America Trophy Systems is dedicated to the trophy hunter. Here at Trophy Systems, we won't waste your time and money applying you to sub-trophy hunts just to draw you a license. When you draw a tag with Trophy Systems, you can be assured that it is in an area that has recorded class animals of the species you have applied for. Our commitment is to quality, not quantity. Trophy Systems has the experience and we have extensively researched the best trophy areas in each state. Our attitude at North America Trophy Systems is your success is our success.

In order for you to join our licensing and consulting service, you will be charged a one-time consulting fee of \$125.00 per license. This, along with the cost of your non-resident license you are seeking, will get you going. This fee allows you to pay each year until you draw your hunt. An information sheet with the required State Fish and Game requirements, along with a Limited Power of Attorney form, gives us permission to sign your hunt applications. They are enclosed in this brochure for your convenience. Successful applicants will be forwarded their licenses and permits. The license fee is refundable at any time you request, other than such times your monies have been submitted from various permits. Should you request a refund and withdraw from our program, you will forfeit the \$125.00 consulting fee. If you are refunded, and then wish to re-enter the program, you would again be charged the \$125.00 consulting fee.

Each year, after the individual states have completed the draw process, your notification of successful or unsuccessful permit will be sent to you. The license fee that is refundable to Trophy Systems will be deposited into a bonded, insured pool account. The monies are held and maintained for the following years draw.

As the new proclamation and license fees are released by each state, your application will be reviewed and you will be updated as to which hunts are the best for you to apply for in the coming year. Any further monies due from changes to license fees will also be billed at this time.
